DANIEL **CARLMAN**

American/Brazilian · Chicago IL
daniel.v.carlman@gmail.com · **LinkedIn** · **GitHub**

I am a Frontend Developer based in Chicago, IL. I enjoy working in collaborative teams focused on creating unique products. I'm passionate about the React ecosystem and open to learn backend technologies.

SKILLS

- HTML, CSS
- React, JavaScript, TypeScript
- Zustand, React Context, and Redux
- Tailwind, styled-components

- Unit Testing, Jest
- React Native, Expo
- RESTFul APIs, Axios, React-Query and Postman

WORK EXPERIENCE

FEBRUARY 2021 – CURRENT
FRONT-END DEVELOPER, MENTORCRUISE

MentorCruise is a start-up that connects mentors and mentees. I'm the primary Front-End developer and I helped the company scale to over 15000 customers.

- Developed the MentorCruise app from scratch using Ionic, React, TypeScript, React-Query, and Zustand. It features integrated chat, push notifications and authentication. It's a hybrid app that works on Android and iOS.
- Modernized the dashboard and the landing pages, refactoring legacy code using Tailwind and AlpineJS.
- Implemented unit tests for the Django backend using Python.

SEPTEMBER 2019 – APRIL 2020
FRONT-END DEVELOPER, ALTER

Alter (formerly Alterbank) is a fintech that aims to make Bitcoin accessible to retail investors.

- Gained experience maintaining large React codebases.
- Built new features to the internal pages while learning good practices.
- Implemented design specifications with SASS and a responsive mobile-first approach.
- Integrated frontend and backend with RESTful APIs using Axios.
- Worked on a React Native (Expo) app with styled-components.

SEPTEMBER 2016 – OCTOBER 2019
FREELANCE TRANSLATOR, UPWORK

- Translated documents, books, games and other media from English to Portuguese.
- Maintained a top-rated 100% job success rate profile for 3 years by providing exceptional value to clients.
